Confirm that you received my report on tip mont

To: fwpgen@mt.gov, John Meyer

To Fish and Wildlife

I am writing to confirming that you received my report filed on your web system, (Tip Mont,) a couple weeks ago. My report had the following information included:

In the fall of 2012 I was elk hunting on the Sweetwater road east of Dillon Mt with my friend John Meyer and his significant other. We stopped a pick a man who had gotten his truck stuck in the thawing snow and mud.

In the course of the drive to Dillon the man said that he had worked for an outfit that grazed sheep on Forest Service land in the Gravelly Mountain Range. I do not recall the mans name and he did not say what permittee that he was working for.

John Meyer asked him if they ever see Grizzly Bears while grazing sheep. The man responded they practice the three S's. We Shoot, shovel and shut up.

I hope this enables you to support our resources

Thank You

Nolan Salix
