

CARPENTRY FOR GARDENERS WORKSHOP

Ready to support your garden as much as it supports you? Learn the basics of carpentry with the goal of creating trellises, tomato cages, and more!

In this workshop, we'll learn to use drills, chop saws, brad nailers, and more to create a wooden tomato cage from repurposed materials. Next time you need a little extra support in your garden, you'll be able to build it yourself, saving time and money!

Join us in this carpentry workshop created just for gardeners in collaboration with our friends at Garden City Harvest!

In this workshop, you'll gain experience in:

SAFELY & PROPERLY USING **POWER TOOLS**

BUILDING STRUCTURES TO SUPPORT PLANTS

CARPENTRY TECHNIQUES & **FUNDAMENTALS**

JUNE 6TH, 12 - 4 PM
NORTHSIDE GARDENS
650 COOLEY STREET

THANKS TO OUR COLLABORATOR!
